**Papua New Guinea Small Church**  
Brian & Jordan Gong

Brian grew up attending CBC and has been at this church for most of his life. He studied at Seattle Pacific University where he majored in electrical engineering. Some of his hobbies include playing music, tennis, and volleyball. It was through volleyball that he and Jordan met while playing on opposing teams. Jordan is a recent new member of CBC after marrying Brian in 2018 but was already attending church in this area. She also graduated from SPU where she studied accounting. Fun fact: Jordan is a triplet with two brothers! She also enjoys playing tennis, volleyball, and crocheting. Together, they enjoy traveling, eating good food, being active, and socializing with people.

We are excited to start a Small Church because it allows us to combine our passion for people with the power of prayer and showing VIPs how God is actively working in our lives. Small Church also creates an intimate setting in a home that is both natural and welcoming. This environment allows everyone to openly share their lives and learn about God without feeling intimidated by walking into a big church. We look forward to serving our flock in a genuine way to meet their physical, emotional, and spiritual needs.

We believe it is important to reach VIPs because of God's calling to make disciples of all nations. God has placed every Christian in particular circles of influence where they can outreach to friends, family, and coworkers who do not yet know Jesus. It is important to share the hope that we have been given so that others may experience it as well and be saved.

Our new Small Church is currently composed of young adults and young couples, but we also hope to include young families. In order to reach VIPs, our Small Church will continually be looking and praying for opportunities to witness to people in our lives and eventually invite them to Small Church so we can share our lives with them and teach them to S.T.A.N.D. We recognize that we cannot reach the lost on our own, so we will be praying for God to bring VIPs into our lives and prepare their hearts and minds to experience Him through our Small Church.
